ข้าพเจ้ารำลึกถึงวัณโรคในประเทศไทยเจ็บไปนาน เพิ่งมาตั้งเอาวันสองวันนี้ ที่มีข่าวว่าประเทศไทยถูกองค์การอนามัยโรคจัดเป็นประเทศหนึ่งใน ๑๔ ประเทศที่มีวัณโรคชุกชุม รัฐบาลไทยจึงเสนอให้แก้วัณโรคไทยเน้นงานศึกษาวิจัยเพื่อลดการแพร่ระบาดลง^(๑) ทราบเรื่องทำเอาอยากลงไปทำการศึกษาวิจัยอีก เพราะสมัยก่อนเคยสนใจศึกษาเรื่องวัณโรคมาก งานการศึกษาวิจัยเรื่องแรกๆในชีวิตเป็นเรื่องวัณโรคและเขียนตำราวัณโรค ภาษาไทย ๒ เล่ม (วัณโรคปอด กับวัณโรคนอกปอด) ดุษฎีนิพนธ์ก็เรื่องวัณโรค (ความสัมพันธ์ระหว่างความไวเกินต่อทูเบอร์คิวลิน กับเซรัมโปรตีนในวัณโรค)

ปกหนังสือวัณโรคปอด

วัณโรคนอกปอด

ดุซงึนฬนฬ

บทความวัณโรคที่ลงพิมพ์ในวารสารทั้งในประเทศและต่างประเทศคงเกินร้อย ขอยกตัวอย่างบทความที่เป็นเอกสารสิ่งพิมพ์เท่าที่จำได้ดังต่อไปนี้

๑. The course and prognosis of endobronchial tuberculosis in children. Am Rev Tuberc 1956; 74: 246-55.
๒. Endobronchial tuberculosis in children. A study of 156 children. Am Rev Tuberc 1958; 77: 39-61.
๓. Tuberculous pleurisy with effusion. A study of 202 children with particular reference to prognosis. Am RevTuberc 1958; 77: 271-89.
๔. Reversion and reversion rate of tuberculin skin reactions in correlation with the use of prednisone. Dis Chest 1960; 38: 51-55.
๕. The serum protein in tuberculin-negative and tuberculin-positive healthy persons. Am Rev Respir Dis 84: 93-4.
๖. The passive transfer of delayed cutaneous hypersensitivity to tuberculin in man. A pilot study using serum from person with active tuberculosis. J Med Assoc Thai 1961; 44: 725-31.
๗. Concurrent alterations of serum proteins and tuberculin hypersensitivity. J Med Assoc Thai 1961; 44: 866-70.
๘. Hypersensitivity and serum proteins in tuberculosis. Siriraj Hosp Gaz 1961; 13: 638-40.
๙. Serum protein changes in tuberculosis in humans; with particular reference to alpha-2 globulin. Am Rev Respir Dis 1962; 85: 58-65.
๑๐. Serum protein pattern in persons with "inactive" tuberculosis. J Med Assoc Thai 1962; 45: 32-4.
๑๑. Combination of prednisone and chemotherapy in tuberculous pleurisy with effusion. Jap J Tuberc 1962; 10: 32-9.
๑๒. Tuberculin skin test and serum proteins. J Med Assoc Thai 1962; 45: 174-80.
๑๓. Attempts at passive transfer of tuberculin hypersensitivity with pleural fluid from a

- tuberculous patient. A pilot study. J Med Assoc Thai 1962; 45: 319-23.
๑๔. Failure to transfer tuberculin hypersensitivity passively with supernate of pre-incubated exudative cell suspension. J Med Assoc Thai 1963; 46: 9-17.
๑๕. Serum transfer of delayed cutaneous hypersensitivity to tuberculin in man. Dis Chest 1963; 43: 393-6.
๑๖. Passive transfer of delayed hypersensitivity with iodine 131-labelled serum. Jap J Tuberc 1963; 11: 28-35.
๑๗. The intradermal tuberculin test. Reading time and classification of reactions. J Med Assoc Thai 1963; 46: 416-24.
๑๘. The transfer of delayed cutaneous reactivity to tuberculin with serum protein fractions. Siriraj Hosp Gaz 15: 597-9.
๑๙. The delayed-type of hypersensitivity; with particular reference to immunologic mechanism. J Med Assoc Thai 1963; 46: 542-51.
๒๐. The passively transfer hypersensitivity reactions. J Med Assoc Thai 1964; 47: 18-24.
๒๑. The role of chest surgery in tuberculosis. Siriraj Hosp Gaz 1964; 16: 437-43.
๒๒. The "false-positive" tuberculin reactions. Siriraj Hosp Gaz 1964; 16: 474-7.
๒๓. The tuberculin reaction curves. A comparative study between PPD and Old Tuberculin. J Med Assoc Thai 1965; 48: 264-71.
๒๔. Repeated BCG vaccination. A preliminary report. Siriraj Hosp Gaz 1965; 17: 201-13.
๒๕. B.C.G. vaccination. Siriraj Hosp Gaz 1965; 17: 240-2.
๒๖. The B.C.G. reactions. J Med Assoc Thai 1965; 48: 564-72.
๒๗. The tuberculin tine test. Results of a trial in one hundred subjects. J Med Assoc Thai 1965; 48: 771-85.
๒๘. Adverse reactions to antituberculotics. Siriraj Hosp Gaz 1965; 17: 583.
๒๙. The peroral B.C.G. vaccination. A pilot study. Siriraj Hosp Gaz 1966; 18: 59-69.
๓๐. Corticosteroid therapy in pulmonary tuberculosis. J Med Assoc Thai 1966; 49: 304-8.
๓๑. PPD-RT 23 versus Old Tuberculin. Siriraj Hosp Gaz 1966; 18: 416-22.
๓๒. Nontuberculous mycobacteriosis. Siriraj Hosp Gaz 1967; 19: 209-11.
๓๓. Tuberculous chemoprophylaxis. J Med Assoc Thai 1967; 50: 566-9.
๓๔. Current concepts of pathogenesis of tuberculosis. Siriraj Hosp Gaz 1967; 19: 566-7.
๓๕. Classification of pulmonary tuberculosis. J Nursing 1967; 16: 293.
๓๖. Antituberculotics. Roy Thai Navy Med J 1967; 7: 196-215.
๓๗. Antituberculosis chemotherapy. J Med Assoc Thai 1967; 5q: 814-25.
๓๘. Scotochromogenic acid-fast bacilli isolated from pleural aspirate. J Med Assoc Thai 1968; 51: 33-9.
๓๙. Vaccine B.C.G. Roy Thai Air Force Med Gaz 1968; 17: 22-45.
๔๐. Symptomatology and physical diagnosis of pulmonary tuberculosis. J Med Assoc Thai 1968; 51: 243-60.
๔๑. Pathogenesis of pulmonary tuberculosis. J Med Assoc Thai 1968; 51: 463-76.
๔๒. Nontuberculous mycobacterial sensitivity in Thailand. A preliminary report. J Med Assoc Thai 1968; 51: 503-20.
๔๓. Diagnosis of pulmonary tuberculosis. Vajira Med J 1968; 12: 203-10.
๔๔. Modern methods in the prevention of contracting tuberculosis. J Nursing 1968; 17: 225-8.

๔๕. Tuberculin. J Med Assoc Thai 1968; 51: 767-803.
๔๖. Immunology of tuberculosis. J Med Assoc Thai 1969; 52: 236-74.
๔๗. The skin sensitivity to photochromogen; a survey at Udornthani province. Siriraj Hosp Gaz 1969; 21: 327-33.
๔๘. Tuberculin testing. Siriraj Hosp Gaz 1969; 21: 1064-5.
๔๙. Photochromogen and tuberculin hypersensitivity in guinea-pigs. Siriraj Hosp Gaz 1969; 21: 1198-204.
๕๐. Skin reactivity to mycobacterial antigens in leprosy patients. J Med Assoc Thai 1970; 53: 338-45.
๕๑. Mycobacteriosis. Siriraj Hosp Gaz 1970; 22: 411-5.
๕๒. Diagnosis of tuberculosis. Siriraj Hosp Gaz 1970; 22: 1080-3.
๕๓. Tuberculin testing. Siriraj Hosp Gaz 1970; 22: 1376-81.
๕๔. The tuberculin unit. Am Rev Respir Dis 1970; 102: 989.
๕๕. Palpable cervical lymph nodes in healthy and tuberculous subjects. Siriraj Hosp Gaz 1971; 23: 1049-60.
๕๖. Characteristics of B.C.G. scars. Siriraj Hosp Gaz 1971; 23: 1459-81.
๕๗. Tuberculin sensitivity and resistance to tuberculosis in thalassaemic patients. Siriraj Hosp Gaz 1972; 24: 1294-70.
๕๘. Epituberculosis. Siriraj Hosp Gaz 1973; 25: 1376-9.
๕๙. Tuberculous lymphadenopathy: a retrospective review of 974 cases. Siriraj Hosp Gaz 1973; 25: 1475-500.
๖๐. Testicular tuberculosis. Siriraj Hosp Gaz 1973; 25: 1578-80.
๖๑. The tuberculin skin reactivity in patients with malignancies. Siriraj Hosp Gaz 1973; 25: 1710-23.
๖๒. The Lucite ball plumbage. Siriraj Hosp Gaz 1973; 25: 1766-9.
๖๓. The presence of tubercle bacilli in the sputum. Siriraj Hosp Gaz 1974; 26: 390-6.
๖๔. Tuberculosis and gastrectomy. Siriraj Hosp Gaz 1974; 26: 482.
๖๕. Peritoneal tuberculosis. Siriraj Hosp Gaz 1974; 26: 1186-90.
๖๖. Miliary tuberculosis. Siriraj Hosp Gaz 1975; 27: 712-4.
๖๗. Management of new cases of pulmonary tuberculosis at the Siriraj Hospital. Siriraj Hosp Gaz 1975; 27: 806-18.
๖๘. Atelectatic-bronchiectatic lungs of tuberculous etiology. Siriraj Hosp Gaz 1975; 27: 878-85.
๖๙. Correlation between lymphocytic transformation and tuberculin skin test among tuberculous patients and healthy subjects. Siriraj Hosp Gaz 1975; 27: 1108-18.
๗๐. Autopsy incidence of tuberculosis in cancer patients (1,159 deceases). Siriraj Hosp Gaz 1975; 27: 1539-50.
๗๑. An instructive case of pulmonary tuberculosis. Siriraj Hosp Gaz 1976; 28: 405-10.
๗๒. Bronchial vasculature of tuberculoma. Siriraj Hosp Gaz 1976; 28: 453-6.
๗๓. Hyperthyroidism and tuberculosis. Siriraj Hosp Gaz 1976; 28: 730-5.
๗๔. Tuberculin reactivity rate and chest radiographic findings in thalassemia. J Med Assoc Thai 1978; 61: 75-6.
๗๕. Tuberculosis and hiccup. Siriraj Hosp Gaz 1978; 30: 366-70.

๓๖. Tuberculous empyema. Siriraj Hosp Gaz 1978; 30: 399-404.
๓๗. Tuberculosis: problems and current approaches to treatment. Viewpoint from Thailand. Med Progr 1978; 10: 17-8.
๓๘. Rifampicin and pyrazinamide in tuberculosis. Siriraj Hosp Gaz 1979; 31: 802-4.
๓๙. Problems and current approaches in short-course chemotherapy for tuberculosis in Thailand. Report of the XIIIth World Congress on Diseases of the Chest, Kyoto, Japan, July 7, 1978. Tokyo: Univ of Tokyo Press 1979:215-8.
๔๐. Pyrazinamide and therapy of meningeal tuberculosis. Siriraj Hosp Gaz 1980; 32: 718.
๔๑. Tuberculosis: delivery of treatment. Viewpoint from Thailand. Med Progr 1980; 7: 11-2.
๔๒. Rifampicin. Siriraj Hosp Gaz 1980; 32: 733-4.
๔๓. Anergy in active pulmonary tuberculosis. Chest 1981; 79: 251-2.
๔๔. Modern therapy for tuberculosis. Thai J Intern Med 1981; 1: 145-6.
๔๕. Renal tuberculosis. Siriraj Hosp Gaz 1981; 33: 889-94.
๔๖. Cerebellar tuberculoma. Report of a case in Thailand. Thai J Intern Med 1982; 2: 119-22.
๔๗. Diffuse tuberculous osteomyelitis; a case report. Thai J Intern Med 1982; 2: 161-4.
๔๘. Rifampicin and chlorpropamide clearance. Siriraj Hosp Gaz 1988; 35: 1073-6.
๔๙. Massive hemoptysis in a previously treated case of pulmonary tuberculosis. Siriraj Hosp Gaz 1983; 35: 113-6.
๕๐. Tuberculous myocarditis; a report of two cases. J Med Assoc Thai 1985; 68: 155-9.
๕๑. T-cell subpopulation in tuberculosis and the effects of rifampicin. Asian Pacific J Allergy Immunol 1985; 3: 165-73.
๕๒. Tuberculosis in Asia. JAMA SEA 1986; 2(2): 4-5.
๕๓. Tuberculosis. Siriraj Hosp Gaz 1986; 38: 227-30.
๕๔. The problem of antituberculosis therapy failure in Thailand. Bronchus 1986; 1: 5-7.
๕๕. HLA and tuberculosis. Asian Pac J Allergy Immunol 1986; 4: 149-56.
๕๖. Disorders calcium metabolism in Thai patients with tuberculosis. Am Rev Respir Dis 1988; 137(part 2): 173.
๕๗. HLA antigen profile in tuberculosis in Thailand; with particular referenceto therapy failure patients. Am Rev Respir Dis 1988; 137(part 2): 432.
๕๘. Adenosine deaminase activity in bronchoalveolar lavage fluids (BALF): test for diagnosis of pulmonary tuberculosis. Thai J Tuberc Chest Dis 1988; 9: 63-9.
๕๙. Altered vitamin D homeostasis in tuberculosis. Intern Med 1988; 4: 45-7.
๑๐๐. In vitro activity of tuberculin upon erythrocyte sedimentation of tuberculosis patients. Siriraj Hosp gaz 1988; 40: 373-7.
๑๐๑. HLA antigen profiles in Thai tuberculosis patients. Asian Pac J Allergy Immunol 1988; 6: 77-80.
๑๐๒. Liver function testing in Thai patients with tuberculosis. Intern Med 1989; 5: 1-3.
๑๐๓. Diagnosis of tuberculosis. Roy Thai Air Force Med Gaz 1989; 35: 77-80.
๑๐๔. Experiences from a one-year supervision of tuberculosis patients and their associates. Siriraj Hosp Gaz 1989; 41: 181-7.
๑๐๕. Tuberculosis of cervical lymph nodes. Siriraj Hosp Gaz 1989; 41: 229-33.
๑๐๖. Immunodiagnosis of tuberculosis. Siriraj Hosp Gaz 1989; 41: 269-71.
๑๐๗. Immunodiagnosis of tuberculosis: A review. Asian Pac J Allergy Immunol 1989; 7: 57-61.

๑๐๘. Phage-type patterns of Mycobacterium tuberculosis in Thailand. Intern Med 1989; 5:44-8.
๑๐๙. Tuberculosis research in Thailand. Intern Med 1989; 5: 73-5.
๑๑๐. Pleural tuberculosis. Roy Thai Navy Med J 1989; 29: 17-23.
๑๑๑. Tuberculosis and immunology. Asian Pac J Allergy and Immunol 1989; 7: 133-9.
๑๑๒. Bronchoalveolar T-lymphocytes and subsets in pulmonary tuberculosis and bronchogenic carcinoma. J Med Assoc Thai 1990; 73: 1-11.
๑๑๓. The association of adenosine deaminase activity with T-lymphocytes and subsets in pulmonary tuberculosis and bronchogenic carcinoma. J Med Assoc Thai 1990; 73: 244-8.
๑๑๔. Tuberculosis research in Thailand and my role in it; Honorary FACP. Siriraj Hosp Gaz 1990; 42: 303-12.
๑๑๕. Adenosine deaminase (ADA) activity in tuberculous and carcinomatous lungs. Siriraj Hosp Gaz 1990; 42: 317-9.
๑๑๖. Immunodiagnosis of tuberculosis in Thailand. J Med Assoc Thai 1990; 73: 305-7.
๑๑๗. Tuberculous mediastinal abscess. Siriraj Hosp Gaz 1991; 43: 254-6.
๑๑๘. Tuberculosis and mycobacteriosis in Thailand: clinical and epidemiological aspects. Intern Med 1991; 7: 29-31.

๑๒๐. Tuberculosis: the GP's role. Commentary from Southeast Asia. Med Progr 1991; 18(9): 27-29.
๑๒๑. Epidemiology, management and drug resistance of tuberculosis in Southeast Asia. Intern Med 1992; 8: 20-24.
๑๒๒. Synopsis of chest medicine: Tuberculosis and other mycobacterioses. J Infect Dis Antimicrob Agents 1993; 10: 33-36.
๑๒๓. A patient of PK. Siriraj Hosp Gaz 1993; 45: 336-8.
๑๒๔. A new profile of tuberculosis epidemiology. J Infect Dis Antimicrob Agents 1993; 10: 179-81.
๑๒๕. Tuberculosis in Southeast Asia. Siriraj Hosp Gaz 1994; 46: 893-6.
๑๒๖. Epidemiology of tuberculosis in Thailand. Siriraj Hosp Gaz 1995; 47: 647-51.
๑๒๗. Tuberculosis of the colon. Siriraj Hosp Gaz 1995; 47: 838-40.
๑๒๘. Environment and tuberculosis. Siriraj Hosp Gaz 1995; 47: 1068-70.
๑๒๙. Adenosine deaminase in the differential diagnosis of pleural effusions. Intern Med 1995; 11: 85-89.
๑๓๐. Tuberculosis in the elderly. Proceedings of 5th Asia/Oceania Regional Congress on Gerontology. Hong Kong J Enterontology 1996; 10 (Suppl): 108-10.
๑๓๑. Travelers and tuberculosis. Intern Med J Thai 2001; 17: 170-1.

มาถึงวันนี้ จะลงไปศึกษาเรื่องวัณโรคอีกก็คงยาก ไม่ใช่เพราะเรื่องอายุที่เป็นตัวเลข แต่เป็นเพราะปัจจุบันไม่ได้ทำงานในสถาบันวิชาการที่มีผู้ร่วมงาน และอุปกรณ์พร้อม ที่สำคัญระดับการศึกษาไม่ใช่แบบเดิมๆ แล้ว วิทยาการความรู้ก้าวหน้าไปมาก ถ้าจะศึกษาก็ต้องลงลึกไปทางอนุเวชศาสตร์และวิทยาภูมิคุ้มกัน ซึ่งผู้ที่ไม่อยู่ในสถาบันวิชาการระดับมหาวิทยาลัย คงไม่มีโอกาส ถึงแม้ว่าอาจจะยังมีความคิดความอ่าน วางโครงการศึกษาวิจัยที่เกิดประโยชน์ได้
